Senior Consultant, AI CoE

AI Product & Strategy professional taking ambiguous enterprise problems from user discovery to prototypes, evaluation frameworks, business cases and implementation across multilingual AI, agentic workflows and configurable automation products.

Professional Experience

Infosys BPM

Senior Consultant, AI CoE, Bangalore — Feb'26 – Present

- **AI Product Incubation:** Led a cross-functional AI Squad incubating AI product bets across finance, logistics, retail, technology and energy; took ambiguous problems from discovery to prototype, client demo and business-case validation across **9 accounts**, **25+ use cases** and **20 prototypes**.
- **AI Reconciliation:** Co-created a reusable product pairing AI document extraction with configurable, auditable reconciliation rules for finance operations; scaled across **~16 workflows** in 9 accounts, delivered **6+ POCs** and took **4 use cases** live in client operations, targeting **30–50% effort reduction**.
- **Marine Claims AI:** Prototyped and pitched human-in-the-loop AI Agents for explainable contract-deadline calculation and correspondence organisation in a **300+ cases/month** claims process carrying **~$0.8M** in annual time-bar exposure.
- **Finance Ops AI-Assist:** Defined and pitched two AI-assist products for invoice processing and vendor queries, covering document validation, case classification, SLA prioritisation, ERP-grounded retrieval and multilingual drafting; prototyped for a projected **~41% time saving** (**~20 FTE**).
- **HR Operations AI:** Mapped voice and non-voice HR operations work and proposed two AI solutions; designed a pilot to move work from **3 countries** to India and set how its performance is judged; ran client workshops with demos, projecting **~40% lower operations cost**.
- **Ramp-down Radar:** Built an AI prototype that flags client accounts at risk of ramp-down by pairing account signals with external-event monitoring; validated on synthetic data, real-data pilot pending sponsor approval.

Senior Program Lead, Corporate Strategy, Bangalore — May'22 – Jan'26

- **Executive Support:** Partnered with the CXO office and business heads to prepare quarterly **CEO briefers**, **board presentations** and investor-ready narratives for **8 consecutive quarters**.
- **Strategic Growth & Portfolio Planning:** Led business planning and financial modelling for **$1.5B+** revenue projections with **40+ global stakeholders**.
- **Market & Competitive Intelligence:** Built an automated intelligence system covering **20+ key accounts** and industries, powering daily and monthly CXO newsletters.
- **Enterprise Transformation:** Directed a **$10M+** cost optimisation programme and two organisational redesigns impacting **20,000+ employees**, delivering **~16% YoY savings (~$450K)**, faster financial reporting and **100% margin improvement** in targeted units.

Bonfiglioli India

Intern – Talent Acquisition and L&D, Chennai — Apr'21 – Jun'21

- Set up the RMS and career site with Naukri; cut hiring time by **20%** through a design-thinking-led candidate experience model.

Education

Indian Institute of Management Sirmaur, H.P, MBA in Marketing and HR – **GPA: 7.01**

St. Joseph's Institute of Technology (Anna University), Chennai, T.N, B.E. in EEE – **85.2%**

Awards

Top Gun Award – Infosys BPM – Best Quarterly Performer – Four Times — Jul'25

CEO High Performer Award – Infosys BPM – Q2'25 — Sep'24

Core Competencies

AI Build & Deployment: VS Code, Claude, Claude Code, GitHub Copilot, Python, MCP; web-app deployment

AI Product & Strategy: User discovery, opportunity assessment, rapid prototyping, AI evaluation frameworks, business cases

Analytics & Certifications: Power BI, Advanced Excel; Business Analytics (Henry Harvin)

Independent Builds: Clinic Appointment & Rota web apps, 2 Personal learning apps; GitHub-hosted, built with Claude Code
